

I am very concerned about the proposal to allow LPFM stations to take priority over translators stations in my area. I live in a rural area that requires translators to get signals from larger FM stations that I would like to listen to. The LPFM stations generally have a very focused content which is not of general interest. The primary translator station provides music and news that I cannot get in a local station. The translator station also provides local public announcements of interest to me. Thank you for your consideration in this matter.
